

DEALER DISPATCH

Holt Supply Newsletter

Welcome to the first edition of Dealer Dispatch—a newsletter designed to keep our dealers up-to-date on the most important news affecting our industry.

Changes Coming to American Standard's Limited Warranty Management Process

Starting in February or March, American Standard will require the installation address during registration, warranty lookup, and limited warranty claim filing.

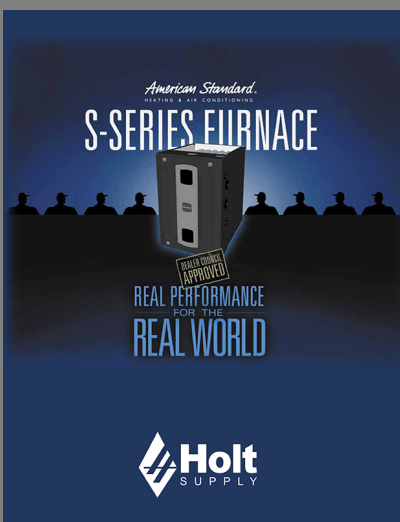

The address will be used to check for home sale, zoning (residential/commercial), and to see if the unit has been moved from its original location

This check could result in change of term or denial of the claim

The process will happen in real time—during registration, warranty lookup, or limited warranty claim filing.

Training will be provided before this takes effect.

We will keep you updated!

Introducing the Gold S9V2 Furnace

- 34" height for easier installation
- Easier to service
- Maintains the DNA of durability that American Standard is known for

We will let you know when these are ready to ship!
